

Fulvio Solinas

Chief Information Officer. University degree in Software Engineering. Master in Business Administration. Senior C-level with 25+ years of experience in Tech Industry, Innovation and Digital Transformation fields.

Languages: native Italian speaker and fluent in English

Role: Chief Information Officer

Office: Turin

Professional activities

Fulvio joined Jacobacci in 1993 thus after so many years of collaboration he can rapidly understand the needs of colleagues and partners, to bring IT benefits and solve business issues while managing costs and risks. During his professional experience, he had the opportunity to manage all the relevant roles and responsibilities inside the Information and Communication technology, to drive every technological aspect of the company including the scouting of new technology trends to transform them in business opportunities. Fulvio is firmly convinced that any successfully solid and long-term change needs: a clear strategic vision, a strong commitment and leadership, a motivated team (colleagues, partners, consultants, providers), skilled and strong in shared values. First class skills of leading and inspiring large teams, managing relationships with clients at all levels up to Board level.

Main Responsibilities

- ICT and Digital strategy
- Strategic Analysis & Internal consulting
- Global IT delivery & Project management
