

Alessandro Pero

Senior Counsel,
European Patent
Attorney. Member of the
Register of Engineers of
Pisa. Alessandro
graduated in
Bioengineering from the
Technical University
(Politecnico) of Turin.

Languages: Italian
native speaker, fluent in
English and French,
knowledge of German.

Areas of competence:
Patents

Office: Bologna

Work experience

Alessandro began his career at Jacobacci & Partners in 2014, shortly after graduating. After serving as in-house intellectual property manager for an American corporation, he rejoined the firm in 2025.

Professional focus

Alessandro has extensive expertise in managing the patent lifecycle within the engineering sector. Drafting and prosecuting Italian, European, and international patent applications. National and international patent litigations. Strategic advisory, including Freedom-to-Operate (FTO), validity and/or infringement analyses.

Areas of expertise

His tenure as an in-house IP Manager allows Alessandro to provide strategic counsel with a global, business-oriented perspective. Alessandro's daily practice primarily focuses on innovations in the field of medtech, robotics, mechatronics, motor vehicles components, as well as micro and nanotech.
