

Arnaud Bonnans

Associate, French and European Patent Attorney. Arnaud graduated from Ecole Centrale Paris, a French general engineering school.

Languages: native French speaker, fluent in English

Areas of competence: Patents

Office: Paris, Nantes

Work experience

After graduation, Arnaud worked as a Patent Engineer for a car part manufacturer, then in the electronic industry. From 2003 to 2013, Arnaud has been working as a Patent Attorney for one of the 5 largest French IP firms. He joined Harle & Phelip as a Patent Attorney in 2013.

Professional focus

Arnaud has an extensive practice drafting and prosecuting French, PCT and European patent applications in various technical areas, with a particular focus in electronics and telecoms. Arnaud has been involved in a series of opposition and appeal proceedings before the European Patent Office. He also has participated in patent disputes and licensing negotiations in France and abroad.

Areas of expertise

Arnaud mainly works in the fields of electronics, telecoms, embedded systems, optics, cryptography, electrical systems, mechanics and physics.
