

**Romina Aseglio-
Gianinet**

Dr., Italian and European Patent Attorney. European Patent Litigator entitled to act before the Unified Patent Court. Professional Representative in Community Design matters before the EUIPO. Master of Science in Medical Biotechnology at the "Università degli Studi di Torino" and Master of Science in Chemistry at the "Università del Piemonte Orientale".

Languages: Romina is a native Italian speaker, she is fluent in English and she has a basic proficiency of French.

Areas of competence:
Patents

Office: Turin

Work experience

Before joining Jacobacci & Partners in 2019, Romina began (in November 2015) her career as a patent attorney first with another Turin IP firm and then with one of the main Milan IP firm. As a patent attorney, Romina assists clients ranging from research institutions and deeply specialized local companies, up to multinational corporations. Romina also worked as an assistant university researcher in the field of biotechnology applied to endocrinology at the "Azienda Ospedaliero-Universitaria San Giovanni Battista" of Turin and as a laboratory chemical analyst in pharmaceutical and food fields.

Professional focus

Romina has practice in drafting and prosecuting Italian, European and non-European patent applications relating to chemical and biotechnological subject-matter, has practice in drafting prior art searches to provide validity and interference opinions regarding patents and/or patent applications. She also deals with patent opposition practices.

Areas of expertise

Romina handles mainly with inventions in the chemical and biotechnological fields, in particular in the field of industrial chemistry and pharmaceuticals.
