

Simone Lorenzi

Ing., Italian Patent Attorney Professional Representative in Design matters before the EUIPO, Simone graduated in Biomedical Engineering from “La Sapienza” University of Rome.

Languages: Native Italian speaker, fluent in English

Areas of competence:
Patents

Office: Rome

Work experience

Simone graduated in Biomedical Engineering from “La Sapienza” University of Rome. Before joining Jacobacci & Partners in 2022, Simone gained industry experience working as a biomedical engineer in research and development in the medical device sector.

Professional focus

As a patent engineer, Simone collaborates with senior partners of the firm to offer valuable support in the protection of intellectual property to companies and privates. Simone is involved, under the supervision of expert colleagues, in freedom-to-operate analysis, prior art searches, patentability opinions as well as in drafting and prosecuting patent applications.

Areas of expertise

Simone mainly deals with inventions in the fields of biomedical engineering, mechanics, industrial automation, automotive and electronics.
