

Edgardo Deambrogi

Partner, Ing., Italian and European Patent Attorney entitled to act before the Unified Patent Court, Professional Representative in Community Design matters before the EUIPO. Edgardo graduated in Electronic Engineering from the Polytechnic of Turin in 1996.

Languages: native Italian, fluent in English, knowledge of French and German

Areas of competence: Patents

Office: Turin

Work experience

Before joining Jacobacci & Partners in 1997, Edgardo worked as a Research Fellow at the Polytechnic of Turin with a focus on acousto-optical devices.

As a patent attorney Edgardo represents and advises clients ranging from local companies and startups to national research institutions and multinational corporations.

Professional focus

Edgardo has an extensive practice drafting and prosecuting Italian, European and International patent applications, handling a broad spectrum of subject-matter in the physical, electrical, electronic and telecommunication fields, including software and AI patents and patents in the automotive field. He also deals with the filing and prosecution of design applications and copyright registrations.

Edgardo provides tailored strategic and practical advice on all IP-related matters, and is experienced in patent litigation before the Italian IP Courts.

He works at the Turin office and follows both domestic and international clients.

Areas of expertise

Edgardo handles both electronic and mechanical matters. Although his core competence is in the area of software and computer-related inventions, electronics, information technology and telecommunications, television, semiconductor devices, Edgardo also has significant experience in the fields of automotive and electrical equipment, such as cable duct systems.

Edgardo has also been involved as lead patent attorney in complex international patent litigation for Italian companies and foreign corporations.
